

9/1/94

Dear Anonymous,

If your post office can read your writing.

I have no idea why you sent me under date of 7/31/94 the review of the Kaitay review of Pagan's work in the L.A. Times of last November. I read it when it appeared.

I ^{also} ~~likewise~~ have no idea why you underlined what you did.

I am full of respect for some of Kaitay's earlier writing but he is not an expert on the JFK assassination and this review is full of factual errors.

My one book on Pagan's has been in the stores for quite some time so I do not need Kaitay for information and I have no need of misinformation.

If you had a serious purpose you did not make it apparent.
